

K-LOVE is a welcome addition to my community because it gives a positive message of kindness and love to all types of people. They never speak badly of others, nor do they bash other religions. They offer good wholesome music and information. I do not worry about the appropriateness of information that is aired. A lot of Christian radio stations are mostly news and talk. KLOVE is mostly music, this makes it unique. It is appealing to a vast array of ages not just one. Please do not remove this station from my area it is a great station. Thank you.
